

Uhde India Private Limited

HEALTH, SAFETY AND ENVIRONMENT (HSE) POLICY

Uhde India Private Limited (UIPL) is committed to design and construct Refinery Units, Petrochemical, Chemical, Fertiliser, Pharmaceutical and other industrial plants, with emphasis on continual improvement in plant safety, reliability and ecology to protect the environment.

UIPL considers safe design of plants to be an integral part of the quality of services to its customers and is committed to its responsibilities towards Health, Safety and Environment (HSE).

UIPL is committed to provide a safe workplace to ensure prevention of accidents, injuries and ill health to its employees and any other persons directly associated with its business, visiting the work place.

UIPL is committed to comply with relevant HSE Legal, Customer and other requirements, applicable to its business.

UIPL Management assumes the responsibility of creating a culture and atmosphere to support implementation, effectiveness, continual improvement and evaluation of the HSE management system.

UIPL Management therefore sets and monitors HSE objectives and targets and provides necessary leadership, commitment and resources to develop, implement and maintain the HSE management system.

UIPL Management shall ensure communication to this effect to UIPL employees, Customers, Subcontractors and Vendors.

All Managerial staff of UIPL are obliged to instruct and motivate other staff accordingly to ensure effective implementation of HSE management system and that all the UIPL employees are trained and are aware of their responsibilities towards HSE.
