### ***Hindustan Organic Chemicals Limited (HOCL) selects Uhde India (UIPL) for Engineering Services Refurbishment Project for its Concentrated Nitric Acid Plant at Rasayani...***

HOCL has selected Uhde India for providing Engineering Services for refurbishment of its Concentrated Nitric Acid (CNA) Plant at Rasayani, Maharashtra, with a view to improve the operational reliability of the plant. The plant was originally engineered and implemented by UIPL.

The scope of services includes Basic & Detailed Engineering, Technical Procurement assistance, Inspection Services for select units and Supervision Services during erection.

HOCL is one of the leading players in the Indian Chemical Industry and manufactures a number of basic organic chemicals essential for vital industries producing resins and laminates, dyes and dyes intermediates, drugs and pharmaceuticals, rubber chemicals, paints, pesticides and others.

Uhde India is amongst India's leading EPC Consulting Companies in the Process Plant Industry and has implemented over 450 projects for the chemical and allied industries, including Concentrated and Weak Nitric Acid plants. In addition to this, UIPL has also been associated with HOCL for their Liquid N<sub>2</sub>O<sub>4</sub>, Nitro toluene & Formaldehyde Projects at Rasayani and Hydrogen Peroxide Project at their Cochin facilities, which were built based on Uhde process technology.

Mr.S.Bhattacharjee, Chief Production Manager, HOCL and Mr.P.D.Joshi, Sr.Manager – Sales, UIPL exchange contract copies at the CNA Contract signing ceremony
